

SETTING THE TIME (M-TECH.9 ONLY)

When in any screen, press the R button for 1 second to display the clock.

Once the time is displayed, press the L and R buttons simultaneously **for 2 seconds**. The **hours** display flashes. Press the R button until the required value is reached.

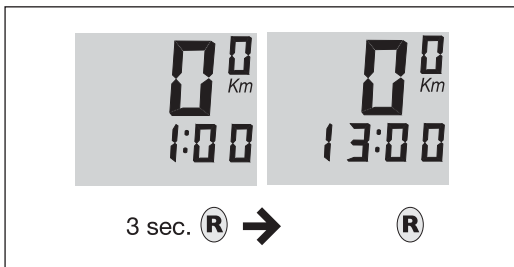

Press the L button to validate.

Repeat the same operation to set the minutes, then validate with the L button.

Selecting 12 or 24 hour display

Either a 12 or 24 hour display can be selected.

When in the «clock» screen, keep the R button pressed down for 3 seconds to go from one display to the other.
